Abstract

This is where the abstract should be placed. It should consist of one paragraph giving a concise summary of the material in the article below. Replace the title, authors, and addresses with your own title, authors, and addresses. You may have as many authors and addresses as you like. It is preferable not to use footnotes in the abstract or the title; the acknowledgments are to be placed in a separate section at the end of the text.

Keywords: AMSA, paper, format.

Introduction

This sample file is intended to serve as a "starter file" for AMSA conference papers produced under LaTeX.

The manuscript should be no longer than 8 pages (up to 16 full pages for Invited Speakers). You can delete our sample text and replace it with the text of your own contribution to the proceedings.

1 Section of the Paper

Text, text.

Text, text.

2 Equations and Mathematical Text

Numbered formulas should be typed as the formula (1).

$$A_n^2 = n \int_{-\infty}^{\infty} \left(\hat{F}_n(t) - F(t) \right)^2 \frac{dF(t)}{F(t)\left(1 - F(t)\right)}. \tag{1}$$

In other cases it should be written as following

$$t_i = \min\left(T_i, C_i\right), \delta_i = 1 \left\{T_i \leq C_i\right\}, i = 1, ..., n.$$

For in-line mathematics we suggest to add formulas as T_x.

2.1 Lists

Lists can be numbered:

1. First item. Text, text, text;

    (a) First item. Text, text, text, text;
        i. First item. Text, text, text, text, text, text, text;
        ii. Second(last) item. Text, text, text, text, text, text, text.
    (b) Second(last) item.

2. Second item. Text, text, text, text, text, text, text, text, text, text, text, text, text, text, text, text, text, text, text, text;

3. Third(last) item. Text, text.

    If you want to specify unordered list, we suggest to do it as follows:

- First item;

- Second item;

- Third(last) item.

3 Tables and Figures/Illustrations

The caption heading for a table should be placed at the top of the table, and that for a figure should be placed below.

Table 1: An Example of a Table

	Column 1		Column 2		Column 3	
	S_n	p	S_n	p	S_n	p
Row 1	0.84	0.29	0.14	0.19	0.98	0.15
Row 2	0.63	0.48	0.09	0.17	0.61	0.13
Row 3	0.72	0.32	0.09	0.18	0.56	0.21
Row 4	0.64	0.45	0.07	0.30	0.48	0.25
Row 5	0.83	0.36	0.14	0.19	0.98	0.18

Authors are advised to prepare their figures in black and white. Please note that the conference proceedings printout will be realized with grayscale pictures. Please check the readability of your colored figures after they have been printed in grayscale.
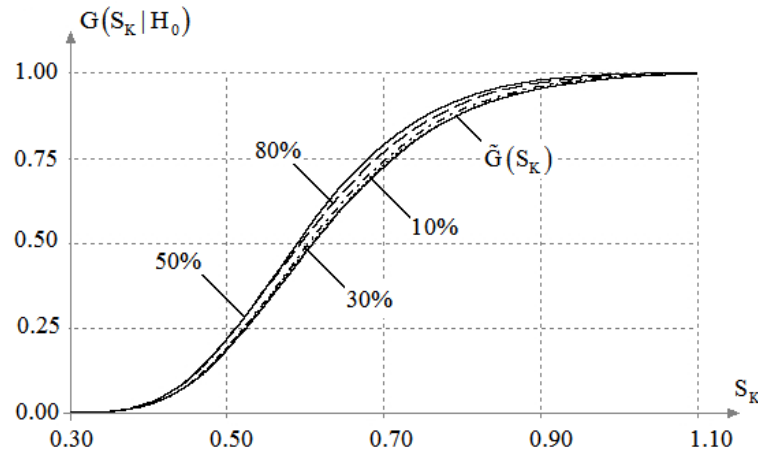

Figure 1: An Example of a Figure

4 Bibliography typesetting

In order to prepare the bibliography, the "`thebibliography`" environment with manually prepared bibitems should be used [1]. The list of references should be ordered alphabetically.

Conclusions

If you have any problems with preparing your article in format LATEX, please contact us (e-mail: `amsa.conf@gmail.com`).

Acknowledgements

This is where one acknowledges funding bodies etc. Note that section numbers are not required for Introduction, Conclusions, Acknowledgments and References.
