

The Third International Workshop
Applied Methods of Statistical Analysis.
Nonparametric Approach
14-19 September, 2015
Novosibirsk and Belokurikha (Altai)

Topics

- Nonparametric and Robust Statistical Methods in Cybernetics (XV Symposium)
- Modeling and simulations
- Statistical methods in clinical trials and quality of life
- Statistical methods in reliability
- Goodness-of-fit tests
- Design of experiments
- Statistical simulation of natural processes
- Applications of statistical methods
- Econometric methods and modeling

The AMSA aims to bring together specialists interested in the development of statistical methods of data analysis and correct and efficient practical application of these methods.

Information

The proceedings of AMSA'2015 will be published by Publishing House of Novosibirsk State Technical University (ISSN 2313 -870X) in English.

The selected papers will be published in «Vestnik SibGAU» (ISSN 1816-9724) in Russian.

The working languages of the workshop are English and Russian (special for XV Symposium).

Important dates: 20.02.2015 Submission of special sessions
20.03.2015 Submission of papers for reviewing
10.04.2015 Notification of the paper acceptance
15.06.2015 Submission of the final version of the paper

Organized by Novosibirsk State Technical University,
Supported by Tomsk State University and
Siberian State Aerospace University

Committee

A.G. Vostretsov, E.B. Tsoy, B. Yu Lemesenko (Novosibirsk State Technical University)
F.P. Tarasenko (Tomsk State University)
A.V. Medvedev (Siberian State Aerospace University)
N. Balakrishnan (McMaster University, Canada)
M. Nikulin (University of Bordeaux, France)
